

I.T. Support

Where and when you need it.....

Our technical support professionals are at the very heart of our company.

As experienced technicians with all Microsoft products, Unix and Linux, and database products such as Oracle, SQL, Informix and DB2, they provide the resource for systems audits and health checks, on-site troubleshooting and hotline telephone support as well as systems implementation and installation.

Our Hardware engineers keep up to date with the latest technology from IBM, Compaq, Dell and HP and have access to a wide array of spares and replacement hardware ready to supply first rate support to our contracted customers. Servers, Workstations, Laptops, Printers and Networks.

Our only aim is to keep your company operational and will tailor our support to meet your requirements.

Please – Do not hesitate to contact us to discuss.....
